

KIKSTICK™

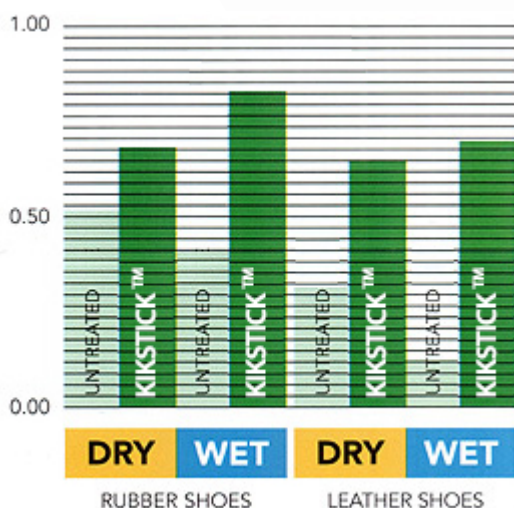

Protect yourself and your loved one's from all slip and fall accidents and injuries with Kikstick™.

Kikstick™ provides millions of nano-technology spikes per square inch on every style of footwear. After treatment, you will have enhanced traction and grip on all wet, icy and dangerous surfaces.

Kikstick™ electrostatically bonds with the sole of your footwear to create an increase in grip and surface traction on all your styles of your shoes, boots or heels.

Before & After Traction Results

Slip & Fall Facts

Every 8 seconds someone is a victim of a Slip or a Fall. Slip and fall accidents are North America's #2 accidental killer.

Our shoe / boot / heel treatment is your solution to dangerous, wet or slippery surfaces. Once installed, it reduces the risk of all dangerous slips and falls on any surface.

According to the National Safety Council there are nine million disabling slip and fall injuries every year in North America resulting in 95 million lost working days per year.

Kikstick™ is simply the most effective traction enhancement in the industry and can be used to enhance grip and traction on any type of shoe, boot, heel or sandal you can think of.
